

Your Home, Your Lifestyle

Homes aren't just houses any more. They are extensions of our lifestyles. T.A. French Custom Builder understands that homeowners know what they want in a home. We listen carefully to your ideas and then turn them into the perfect home for you. When you work with us, you'll have a home that exceeds your expectations. T.A. French Custom Builder was founded on the premise that we would build luxurious custom homes that would exceed the dreams of our home buyers. All of our homes are personally built by the owner Troy French who, with the help of his superintendent, will personally manage the construction of your home. We provide you and your family true "one on one personal service."

Living Spaces, Brought to Life

At T.A. French Custom Builder, we commit to remodeling projects just as fully as we do to new construction. If you have an existing home that needs a face-lift to bring it back to the home you were once so excited about, or an addition to allow it to grow along with your family's needs, we're ready to help you get there. Just like a new build, we'll sit down with you to listen to your ideas so we can design the perfect plan to get you what you want. And then we'll make it happen!

Your relationship with T.A. French Custom Builder doesn't end with your move in. We'll be there for you long after your home is finished to make sure you're still satisfied with the home we built together. If you have concerns, we'll be there to help you resolve them. Your home is as important to us as it is to you because we stake our reputation on it.

The entire T.A. French Custom Builder team is excellent!! I love everything about my home. They are awesome, professional, kind, knowledgeable, etc. Thank you to Troy, Shay, and everyone who made my home just perfect.

— Sherrie Swanberg —

My wife and I had built several new homes through the years and we never had such detailed oversight and attention to our project. Two and a half years after moving into our home I can still call Troy or any of the key players involved in our home with questions or concerns.

— Dick Morris —
